We admire inspired spaces. Spaces that are both functional and stylish, smart and stunning. That’s why the Inspira Collection was created, manufactured by Masco expressly for KSI. Our six door styles were selected after studying design trends and gathering feedback from our home builders and their customers. This cabinetry line offers more product options and more potential to express yourself — all at a reasonable price point. With The Inspira Collection, creating spaces in the home that people will love has never been easier.
For the way you work and play.
Door Styles

Our cabinet doors are offered in select American hardwoods that will stand the test of time. Whether it’s partial or full overlay, recessed or raised panel; we’ve got a look that will bring warmth and character to any room.

SHAKER
Clean lines, timeless and versatile. Whether put in a contemporary, craftsman or classic design, it adds timeless style to any space.

Design

KSI’s professional design team follows a five-step process called “Bringing Design Home.” Systematically following a process from start to finish, enables us to make creative recommendations and facilitate product selections, based on your needs and wants. It all starts with your ideas, which our designers will enhance with their expertise in blending style and function.

DEFINE. Set a course for creativity by defining your personal style and preferences ensuring the design we create will work for the way your family lives, works and entertains in your home.

DISCOVER. Guide an in-depth discovery process to understand your unique needs ensuring the design we create will work for the way your family lives.

DESIGN. Create and review a design concept ensuring better decision making so you can move forward with your project in confidence.

DETERMINE. Finalize measurements, selections, timelines and paperwork for the project ensuring accuracy and communication for a positive remodeling experience.

DELIVER. Receive products and services, communicate and follow-up to ensure you are 100% satisfied with project.
